

MegaWall

Sleek, Elegant, Strong, Durable
Metal Slatwall

Standard size: 8' x 4' or 4' x 8' – 3" oc

SPECIAL FEATURES:

- Dynamic metal finishes, which include galvanized, brushed steel, and swirl plus the solid colors
- Very user friendly and economical. If one profile gets damaged, it can be replaced, rather than replacing an entire slatwall.
- Meets all fire codes
- No exposed screws or fasteners
- Grooves are the same color as the profiles – no stripping effect
- All metal slatwall uses standard slatwall accessories
- Fast, easy installation
- Flexible lengths, heights and configurations, custom cut from 15" to 144", available on special order

Each box comprises the equivalent of one piece of slatwall, covering 32 sq ft, and it contains (16) profiles (for 4' H x 8' L slatwall) or (32) profiles for (8' H x 4' L slatwall) and includes a sufficient number of 4-ft Hanger Strips to allow placement at 16" o.c. intervals. 6-ft Hanger Strips are available upon request (extra Hanger Strips should be ordered when putting one slatwall next to another, or one above the other). Then add the end trim, or corner trim, to create a beautiful finished look.
