

All-in-One Suppliers Inc

Design.
Create.
Install.

Bring us your preliminary store or showroom layout or specifications, and our staff will work with you to create the sales environment that best suits you and your customers.

Or let our design professionals work with you to create your own unique identity. With the wide variety of our carefully selected wood, metal, and lucite fixtures, along with our many years of practical experience in the field, our staff will help you select the best displays, wall and floor treatments, colors, and accessories to express your image, present your merchandise to its best advantage, and create a buyer-friendly atmosphere.

Fabulous Cabling Systems

Sleak. Minimalist. Flexible. Space-Saving.

Clean. Elegant. Modern.

Maintenance-Free.

Affordable.

All-in-One Suppliers Inc

Thank You for Choosing All-in-One Suppliers

All-in-One is proud to be one of the longest established store fixture distributors in New York City. In following the tradition of quality products and excellent customer service that formed the business philosophy of the Dressner family when they established All-in-One in 1914, we continuously strive to keep our merchandise and prices in line with economic conditions that affect the retail and manufacturing industries. We persistently research manufacturers whose products offer the greatest value and availability. Fortunately for our customers and for us, our selections have succeeded for the past 90 years!

One way we are able to maintain low prices is by printing our catalog bi-annually in black and white while updating our website on a regular basis (www.allinonesuppliers.com).

The products featured in this catalog are only part of All-in-One's offerings. We also provide custom services for start-up companies and businesses that are redesigning their stores and showrooms. Our services include:

- Design and product specifications by licensed architects, engineers and retail experts.
- Full-scale planning from initial concept to installation.
- Project management to help ensure cost effectiveness, high quality products and services, and on-time performance.
- Custom construction, finishing, and coating to match any color or motif, including:
 - Metal plating in a variety of finishes, from satin chrome to antique copper.
 - Powder coating on all metal fixtures and racks.
 - Custom wood finishing.
- Branding your business. Custom printing on packaging, hangers, tags, and woven labels.

The Dressner family appreciates the loyalty of our existing customers and always welcomes new businesses to call or visit our showroom for a free consultation. Your success is the measure of our own!

- Adele, Ira, and Sam Dressner
